DYNATRAC
THE **PERFORMANCE AXLE SPECIALIST**

ARMORED VEHICLE AXLE SOLUTIONS

SINCE 1988.

DYNATRAC
THE PERFORMANCE AXLE SPECIALIST

Dynatrac specializes in the development, engineering, and production of custom axle assemblies for military, industrial, and recreational vehicles. Since 1988, Dynatrac has symbolized quality, creativity, and leadership in the unique and vital automotive specialty area of custom drive axle production.

Total Focus

Extreme off-road, military and industrial applications are our specialty, and not an adjunct to other programs or business lines. Successful turnkey axle solutions and retrofits are our primary mission, and are the reason for our continued success. Dynatrac's reputation of leadership in the off-road industry reflects our commitment to over 20 years of product innovation, engineering, design prowess and of course, Made in the USA quality.

Quality Commitment

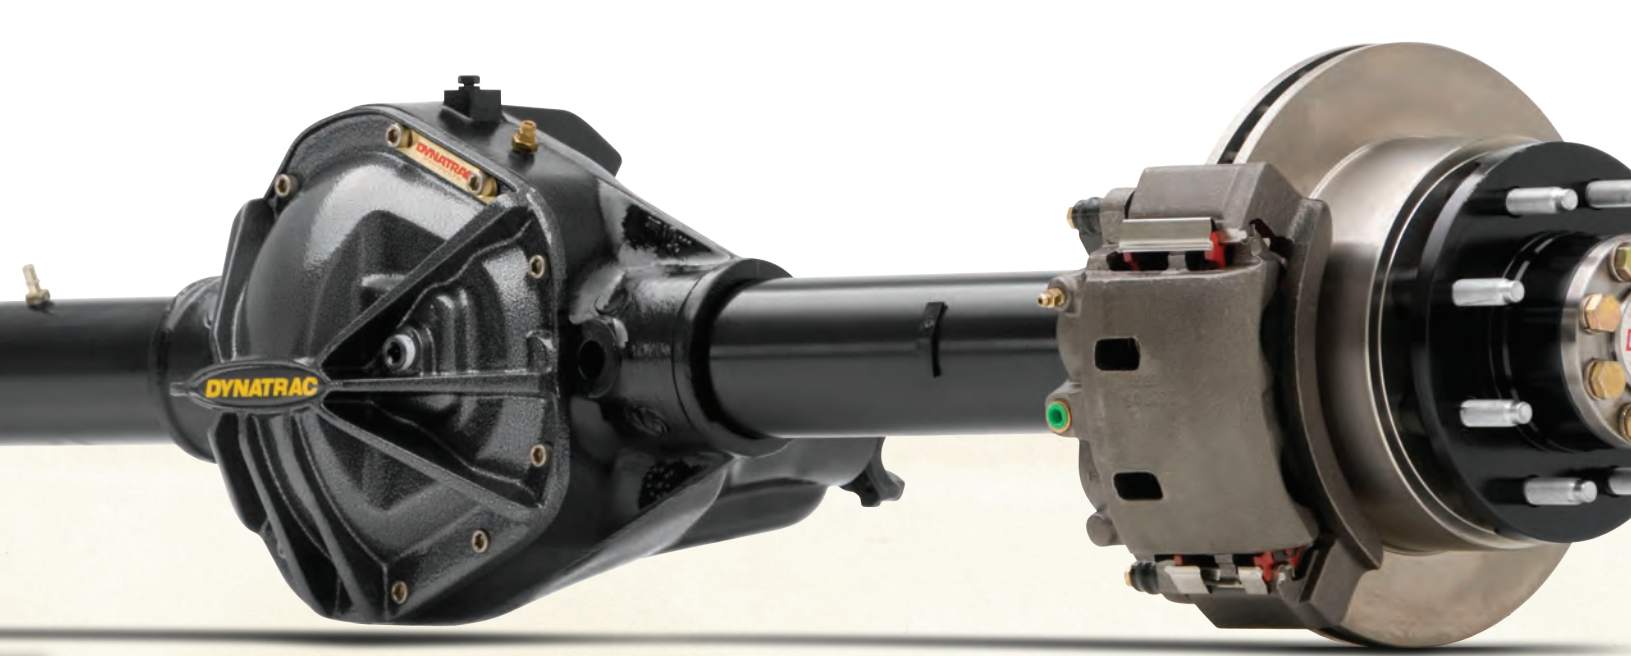

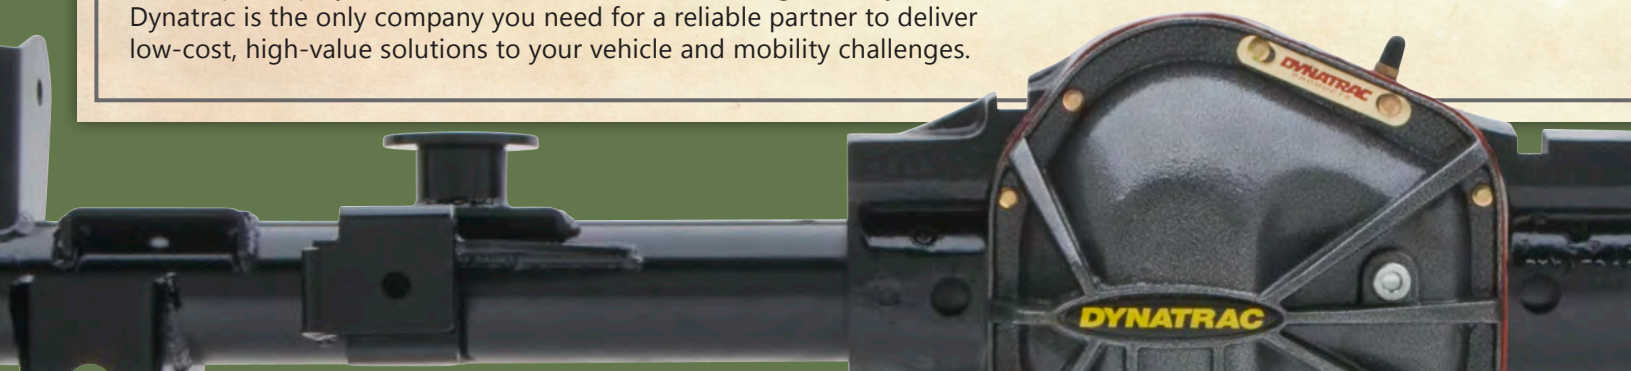

Product quality is essential to meeting the demands of military applications. But more importantly, Dynatrac quality provides safety and self-confidence to the men and women that serve in our Armed Forces, and those of our coalition partners. Reliable mobility is critical to battlefield, and military support operations. Dynatrac delivers such quality and reliability with products proudly made in the USA.

Low-Cost Options

Dynatrac can also help customers that already have a vehicle and are experiencing durability problems, or must push the performance envelope a bit farther. In many cases a simple upgrade will do the job. Dynatrac has axle components and sub-assembly upgrades to handle more severe-duty terrain, additional weight, higher torque, or other needs. Dynatrac has housing upgrades, brake retrofits, axle shaft upgrades, hub and spindle retrofits that can solve many problems economically while preserving existing investments and provide backward compatibility.

Capability and Readiness

Dynatrac offers a range of axles, sub-assemblies and components to meet a wide variety of technical, and functional requirements. Prototypes, short runs, and small programs are perfect for our capabilities. Ramping up to larger production runs to meet rapid deployment deadlines is a distinctive strength for Dynatrac. Dynatrac is the only company you need for a reliable partner to deliver low-cost, high-value solutions to your vehicle and mobility challenges.

ARMORED VEHICLE AXLE SOLUTIONS
